

RESKILL

News of the RESKILL european project

FINAL MEETING

After three wonderful and enlightening years, the RESKILL project is coming to an end. Its last meeting was held mid July in Paris. The partners went over their achievements and a dissemination event was organized. A huge Thanks to all the partners and followers of the project !

SUMMARY

The RESKILL project offered an innovative and comprehensive dual training programme with a strong work based learning component which involved NEETs and young unemployed doing on-the-job training in agri-food companies.

INVITATION - RESKILL FINAL EVENT

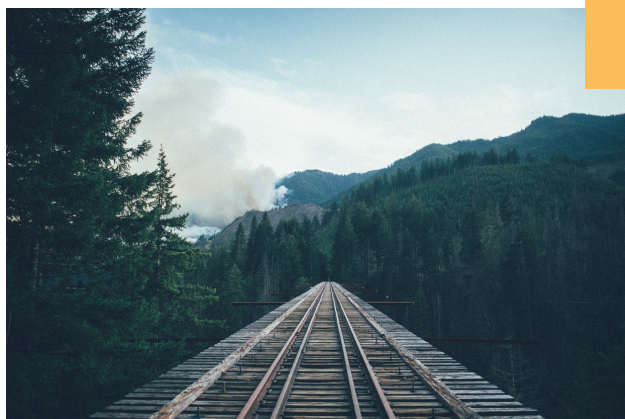

" REAL SKILLS FOR WORK AND ENTREPRENEURSHIP IN THE AGRI-FOOD SECTOR "

The strength of our companies lies in their human resources. This is the reason why the RESKILL partners have been working for the last 2 years to develop tools and methodologies to facilitate the integration of new workers in the food sector. Our final event will be held in Paris next 16th of July. You have been contributing to the RESKILL project and this is why we would like to invite you to join our final event. We will present the main outputs of the project and try to give a global vision of innovative and alternative training methods: apprenticeship, learning by doing, online open training, start-up solutions...

With the participation of the French Ministry for employment, AG2R La Mondiale, UniLaSalle, OPCALIM, the start-up "Uptale"

TUESDAY, JULY 16TH 2019 - FROM 08:30 TO 10:00
AT THE ANIA
9 boulevard Malesherbes • 75008 PARIS

WHAT'S NEXT?

RESKILL is almost over but its tools (e-learning platform, matching platform, Mobility tool...) stay freely available and at the public's disposal. The project also underlined the importance of On-The-Job training and its value in one's career: we hope this legacy will thrive long after the end of RESKILL.
